1. Introduction

This project is based on creating a personal budget using Microsoft Excel. A personal budget helps individuals manage their income, expenses, and savings efficiently. Excel provides powerful tools to organize financial data, perform calculations, and visualize information through charts.

2. Objectives

- To understand the concept of personal budgeting
- To learn the use of Microsoft Excel in financial management
- To track income and expenses systematically
- To calculate savings using formulas
- To represent financial data using charts

3. Tools Used

This project was created using Microsoft Excel. The following features were used:

- Worksheets for organizing data
- Formulas for calculations
- Charts for data visualization

4. Project Description

- Displays total income, total expenses, and net balance for the month.

- Contains 50 entries of dated transactions, including income sources and expense categories.

- Filters and summarizes all income entries (salary, freelance work, interest, dividends, gifts).

- Filters and summarizes all expense entries (housing, food, transport, health, entertainment, education, savings, miscellaneous).
- Contains pie charts for visual analysis of spending and income distribution.

- Provides explanations of formulas, assumptions, and observations for documentation purposes.

5. Data Entry

The project includes realistic financial data:

50 Entries Total: Each entry has a date, category, description, amount, and type (Income/Expense).

Income Entries (5): Salary, freelance work, interest, dividends, gifts.

Expense Entries (45): Rent, food, transport, utilities, health, entertainment, education, savings, and miscellaneous spending.

Dates: Spread across March 2026 to simulate a real monthly budget.

This dataset allows analysis of daily spending, category totals, and overall financial health.

A	B	C	D	E	F
Entries	Date	Category	Description	Amount (₹)	Type
1	1-Mar-26	Income	Salary	50,000	Income
2	2-Mar-26	Income	Freelance Work	8,000	Income
3	3-Mar-26	Income	Interest from Savings	1,200	Income
4	4-Mar-26	Income	Dividend	2,500	Income
5	5-Mar-26	Income	Gift Received	3,000	Income
6	1-Mar-26	Housing	Rent	12,000	Expense
7	6-Mar-26	Housing	Electricity Bill	2,000	Expense
8	7-Mar-26	Housing	Water Bill	800	Expense
9	8-Mar-26	Housing	Internet Bill	1,200	Expense
10	9-Mar-26	Housing	Maintenance	1,500	Expense
11	2-Mar-26	Food	Groceries	6,500	Expense
12	5-Mar-26	Food	Dining Out	2,200	Expense
13	10-Mar-26	Food	Snacks	900	Expense
14	11-Mar-26	Food	Coffee/Tea	600	Expense
15	12-Mar-26	Food	Monthly Subscription Box	1,000	Expense
16	3-Mar-26	Transport	Fuel	4,000	Expense
17	6-Mar-26	Transport	Public Transport	1,200	Expense
18	13-Mar-26	Transport	Car Insurance	3,500	Expense
19	14-Mar-26	Transport	Parking Fees	500	Expense
20	15-Mar-26	Transport	Vehicle Maintenance	2,800	Expense
21	4-Mar-26	Health	Gym Membership	1,500	Expense
22	16-Mar-26	Health	Doctor Visit	2,000	Expense
23	17-Mar-26	Health	Medicines	1,200	Expense
24	18-Mar-26	Health	Yoga Classes	1,000	Expense
25	19-Mar-26	Health	Health Insurance	3,000	Expense
26	5-Mar-26	Entertainment	Netflix Subscription	800	Expense
27	20-Mar-26	Entertainment	Movie Tickets	1,200	Expense
28	21-Mar-26	Entertainment	Concert	2,500	Expense
29	22-Mar-26	Entertainment	Books	1,000	Expense
30	23-Mar-26	Entertainment	Gaming	2,000	Expense
31	6-Mar-26	Education	Online Course	3,000	Expense
32	24-Mar-26	Education	Books & Stationery	1,500	Expense
33	25-Mar-26	Education	Workshop Fee	2,200	Expense
34	26-Mar-26	Education	Tuition	10,000	Expense
35	27-Mar-26	Education	Exam Fee	1,800	Expense
36	7-Mar-26	Savings	Emergency Fund Deposit	5,000	Expense
37	28-Mar-26	Savings	Fixed Deposit	7,000	Expense
38	29-Mar-26	Savings	Mutual Fund Investment	6,000	Expense
39	30-Mar-26	Savings	Recurring Deposit	3,500	Expense
40	31-Mar-26	Savings	Retirement Fund	4,000	Expense
41	8-Mar-26	Miscellaneous	Gift for Friend	1,500	Expense
42	9-Mar-26	Miscellaneous	Charity Donation	2,000	Expense
43	10-Mar-26	Miscellaneous	Household Items	2,200	Expense
44	11-Mar-26	Miscellaneous	Pet Care	1,800	Expense
45	12-Mar-26	Miscellaneous	Clothing	3,000	Expense
46	13-Mar-26	Miscellaneous	Accessories	1,200	Expense
47	14-Mar-26	Miscellaneous	Beauty/Salon	2,500	Expense
48	15-Mar-26	Miscellaneous	Travel Trip	15,000	Expense
49	16-Mar-26	Miscellaneous	Home Decor	4,500	Expense
50	17-Mar-26	Miscellaneous	Festival Celebration	6,000	Expense
			Total		
			Income	64700	
			Expenses	140600	
			Net-Balance(Income - Expense	-75900	

6. Formulas Used

- SUM Function:

=SUM(E2:E51) ---Calculates total of all amounts.

- SUMIF Function:

=SUMIF(F2:F51,”Income”,E2:E51) ---Calculates total income.

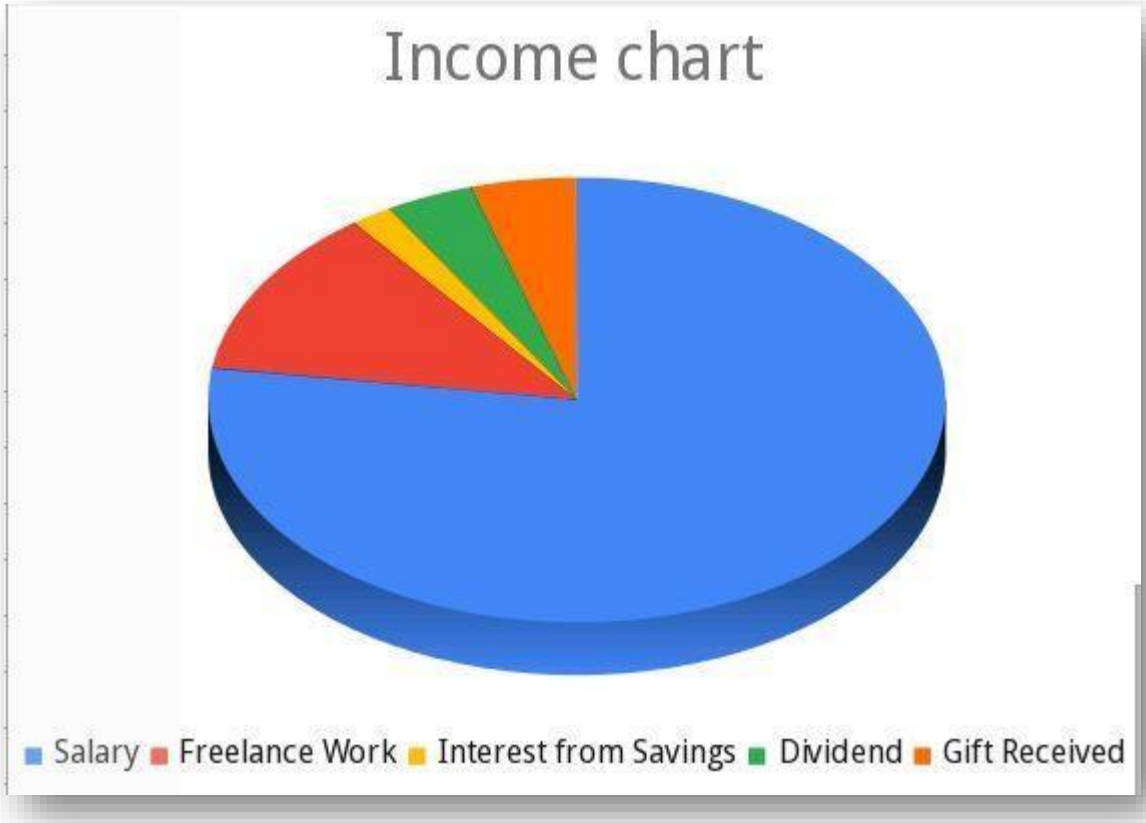
=SUMIF(F2:F51,”Expense”,E2:E51) --- Calculates total expenses.

- Net Balance:

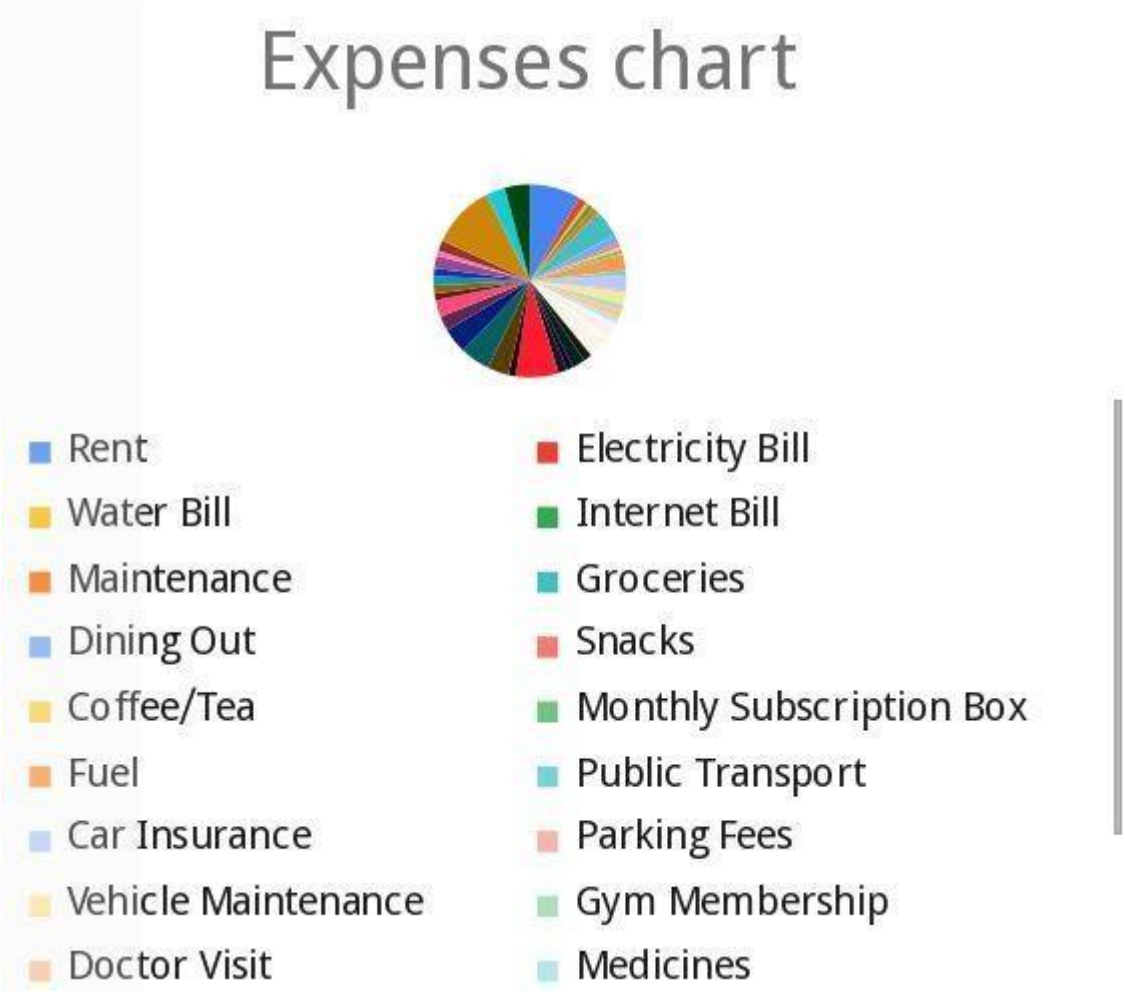
=SUMIF(F2:F51,”Income”,E2:E51) – SUMIF(F2:F51,”Expense”,E2:E51) --- Calculates remaining balance

These formulas automate calculations and ensure accuracy.

7. Charts and Visualization



Income chart
Salary
Freelance Work
Interest from Savings
Dividend
Gift Received



- Pie Chart: Shows distribution of expenses across categories

Charts help in better understanding and analysis of financial data.

8. Advantages of the Project

- Helps in effective financial planning
- Tracks income and expenses clearly
- Encourages saving habits
- Reduces unnecessary spending
- Provides visual insights through charts

9. Conclusion

This project demonstrates the importance of budgeting and how Microsoft Excel can be used as a powerful financial management tool. It helps individuals make informed decisions and maintain financial discipline.

10. Acknowledgement

I would like to express my sincere gratitude to my subject teacher Mr. Rajat Patial for his guidance and support throughout this project. I also thank my institution for providing the opportunity to complete this assignment.
